

AMENDMENTS TO THE CLAIMS:

Claim 34 is amended. The following is the status of the claims of the above-captioned application, as amended.

Claims 1-33 (Canceled).

Claim 34 (Currently amended). A solid phytase composition, comprising:

- (a) an enzyme having a phytase activity of above 20 FYT/g of the composition, and
- (b) corn steep liquor in an amount sufficient to stabilize the enzyme having phytase activity.

Claim 35 (Previously presented). The composition of claim 34, wherein the corn steep liquor is present in an amount of 1-5%.

Claim 36 (Previously presented). The composition of claim 34, having a chromatogram determined by HPLC, which has one or more of peaks 1-10.

Claim 37 (Previously presented). The composition of claim 34, further comprising a starch material.

Claim 38 (Previously presented). The composition of claim 34, further comprising wheat starch.

Claim 39 (Previously presented). The composition of claim 34, further comprising a disaccharide.

Claim 40 (Previously presented). The composition of claim 34, further comprising a carrier material.

Claim 41 (Previously presented). The composition of claim 34, further comprising a filler material.

Claim 42 (Previously presented). The composition of claim 34, further comprising one or more vitamins, one or more minerals or a mixture of both.

Claim 43 (Previously presented). The composition of claim 34, wherein the phytase activity is at least 25 FYT/g of the composition.

Claim 44 (Previously presented). The composition of claim 43, wherein the phytase activity is at least 50 FYT/g of the composition.

Claim 45 (Previously presented). The composition of claim 44, wherein the phytase activity is at least 100 FYT/g of the composition.

Claim 46 (Previously presented). The composition of claim 45, wherein the phytase activity is at least 250 FYT/g of the composition.

Claim 47 (Previously presented). The composition of claim 46, wherein the phytase activity is at least 500 FYT/g of the composition.

Claim 48 (Previously presented). The composition of claim 47, wherein the phytase activity is at least 750 FYT/g of the composition.

Claim 49 (Previously presented). The composition of claim 48, wherein the phytase activity is at least 1,000 FYT/g of the composition.

Claim 50 (Previously presented). The composition of claim 34, wherein the phytase activity is in the range of 20-50,000 FYT/g.

Claim 51 (Previously presented). The composition of claim 34, wherein the phytase activity is in the range of 100-25,000 FYT/g.

Claim 52 (Previously presented). The composition of claim 34, wherein the phytase activity is in the range of 500-10,000 FYT/g.

Claim 53 (Previously presented). The composition of claim 34, wherein the phytase activity is in the range of 1,000-5,000 FYT/g.
